

Freeport Junior Program

General Membership & Juniors

Pistol Shooting Guidelines

1. All Freeport Junior members, who wish to load and fire a pistol/revolver on the Freeport R&R Association (FRRA) property, must be Pistol Certified by the Freeport Junior Program (FJP). The certification is **MANDATORY**. No Pistol Certification...The Freeport Junior member can **NOT** handle, load or fire a pistol/revolver on the FRRA property. This certification has two (2) levels: RIM FIRE and CENTER FIRE. The RIM FIRE Certification requires an NRA Pistol Class and a Safety Certification similar to what the adults get at their initial club sign-up/enrollment. If applicable, the junior's FRRA club member parent must also take the NRA Pistol Class. The only exemptions for the FRRA club member parent is if they are already, and currently, an NRA Instructor, Coach or Training Counselor or are currently and actively competing in any discipline (Bullseye, IPSC, IDPA, etc.). These classes will come with a charge, i.e. Not for free. For the Freeport junior to achieve a CENTER FIRE status, they will have to pass a **MANDATORY** Shooting Qualification with the Rim Fire pistol/revolver, which consists of achieving a Marksman rating of 60-points, or better, in 50-Foot Bullseye Slow Fire (2-strings of 5-shots), on two (2) consecutive targets. The certification is a privilege, and can be suspended/revoked at anytime by the FJP Staff.
2. At FRRA FJP PUBLIC pistol matches, all non-FJP members, without licenses, are required to meet a qualifying standard, that is approved at the match coordinator's discretion.
3. Open Bolt Indicators (OBI), of some type/design, will be **MANDATORY** to use, on the firing line, for all pistols/revolvers possessed by juniors when they are not loading or firing.
4. All pistols/revolvers will be **BOXED** while 'to & from' the range points by juniors.
5. If the FRRA adult member parent brings their **certified** junior to the range during non-Junior Program time, they are solely responsible for their child's actions and, they must **NOT** be shooting while their child is in possession, loading or firing a pistol/revolver.
6. Breaking these guidelines can get the Freeport Junior's membership suspended/revoked. Additionally, if an FRRA adult parent member is involved, a recommendation for suspension/revocation of their membership may be made to the FRRA Head Safety Officer.
7. These guidelines do **NOT** apply to events under the auspices of other organizers at the FRRA, such as, but not limited to: IDPA and IPSC.
